This sheet is inserted, hastily printed, to make up for sections from various printers that the mailman did NOT bring. Ray H. puts it in to save his, the mailman's, face.

WONDER AGE

'Steam Engine' Bests Horse!

A new locomotive engine of wonderous dimensions and capabilities recently was placed in service by the Balto. & Ohio Railroad. It travels between Parr Ridge and Baltimore, a distance of 40 miles.

This wonder machine has been named Atlantic and makes one full round trip of eighty miles each day!

The weight of the machine with its charge of fuel in the furnace, and water compliment in the boiler, is 6 tons;

with about four tons resting on the two traveling wheels. These wheels are 3 ft. in diameter.

There are two upright cylinders of 10 inches diameter and the tubular boiler stands in an upright position.

The cost of running this engine one round trip will, at the present high price of fuel, probably be \$16.00, as follows:

Engineer	\$ 2.00
Assistant	
One ton Anthracite coal	\$ 8.00
Oil	\$.50
Repairs	\$ 2.00
Interest on investment	
Contingencies	\$.75

This expendature for steam power will preform all the services now accomplished with 42 horses and 12 men at a cost of \$33.00 daily!

- The article above was re-written and abridged from a report of the Chief Engineer, Baltimore & Ohio Railroad dated Oct. 1, 1832.

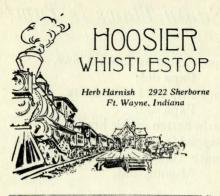

Santy Tlaws Is Tum!

Papa d'essed as Santy Tlaws,
Papa did;
Den he tip toed out'r doors,
Papa did;
Tottin batten on his head
W'apped in mummy's w'apper wed,
"Santy Tlaws is tum," she said,
Mummy did.

Den he come so soft eround,
Papa did;
An' de front piazzer found,
Papa did;
Raised the winder wide an' -- well
Taught his foot, an' down he fell,
An' he shouted -- I can't tell
Papa did.

Mummy, she was riled, an' said,
Mummy did;
"All de child'en go to bed,
Mummy did;
Only naughty people swear,
Mummy diveled him for fair,
Tause I heard her from the stair,
Mummy did.

Remember Way Back When?

It wasn't necessary to deposit a coin in a machine in order to weigh yourself? The General Store and Elevator always had a platform scale handy.
